Elder Scrolls Online - Forum The Elder Scrolls Online: Free Play [Latest Version] About the Elder Scrolls Online, the free-to-play online MMORPG from ZeniMax Online Studios, just got a bit of a major update, adding a new flying mount, weapon, armor, and mounts, along with a crash and fix. Read the full patch notes below, and jump into the game now to check it out! Right-click to teleport and hold to continue flying. Improved hit detection and collision while flying (and falling). Visual improvements for combat environments. Various bugfixes and improvements. A crash that could occur after loading new save files has been fixed. Players may not create 2Bik on the ground by right-clicking and then press 2. Clicking to pick up a dead body while in Steeldancing training now properly selects the body. Players can now click and then hold while in Steeldancing training to teleport to the ground. The 2nd/3rd tier of Skill Gems now appear in the Inventory (FXI-065) and the quest reward system now scales with the level of the Skill Gem. The amount of XP received from leveling up a Skill Gem now scales with the level of the Skill Gem. Lampshaders have been updated for version 9. Other significant fixes and improvements have been made to the game. Please see the Q & A section below for more details and let us know how the update is going for you. For more information about the game please see the official ESO website, our ESO subreddit or come visit us at one of the following conventions: Free Guides & Updates - MyElderScrollsForum.com Play Elder Scrolls Online for free on any PC or Mac with a Unity account.
